

Are YOU interested in Geology?

Arkansas Geological Survey
3815 West Roosevelt
Road
Little Rock, AR 72204

The Arkansas Geological Survey needs you!

2011 STRIVE Program

Are you interested in rocks, minerals, fossils, like to be outside and enjoy learning about Arkansas geology? Then look no further. If you are a middle school, junior high or senior high school science teacher that would enjoy getting a little mud on your feet this summer, apply for the 2011 STRIVE program.

The Arkansas Geological Survey is searching for an enthusiastic, motivated candidate to join us from June 6th – July 29th.

What does the AGS do?

Our mission is to serve the people of Arkansas by providing geological information in order to develop and enable effective management of the State's mineral, fossil fuel and water resources while protecting the environment.

What will you do?

Here is a list of potential projects:

- Catalog and photograph fossil collections
- Compile a roadside geology log for a highway in Arkansas
- Create a geology write-up for a scenic area or trail
- Research and create a pamphlet on the oldest rock of Arkansas

How do I apply?

The application form can be accessed at the following website.
